### *March is Colorectal Cancer Awareness Month*

Colon cancer is preventable, treatable, and beatable. It can be prevented by finding and removing polyps before they become cancerous. It is also highly treatable if found in its early stages. Begin screening at age 50, and before age 50 if there is a strong family history of risk factors.

**Colonoscopies have been proven to save lives!**

If you're 50 or older or have a family history of colon issues, schedule yours TODAY!

Welcome New Hires to the City!
