Important Message from HR

The Dangers of Being in a Hurry

- Rushing through a task can have serious long-term consequences.
- Taking shortcuts often results in accidents.
- Working carefully and deliberately gives you time to think about potential hazards and getting the job done right.
- Always putting safety first will help you not be in a rush.

RELAY FOR LIFE RESULTS:

The CaringSoles raised \$10,540.

The winner of the carport prize was Cindy Carpenter!

HALLOWEEN SAFETY Tips:

MAKE SURE TO STAY SAFE THIS HALLOWEEN!

Avoid any costumes that might pose any work-related safety hazards such as slips, trips, and any that might easily catch on fire or block your vision.

NEWS & ANNOUNCEMENTS

Fundraise or donate

Raise awareness by hosting an event or launching a fundraising website. Or, make a personal donation in honor/memory of a loved one.

Get involved

There are numerous national, regional and local cancer awareness organizations. Become involved and help spread the message of hope. Sit on committees to plan events or help with educational programs.

Serve the community

Reach out to a local hospital and find ways you can support breast cancer patients as they go through treatment.

Support a friend or family member

If you know someone battling breast cancer, be there to support them and their family.

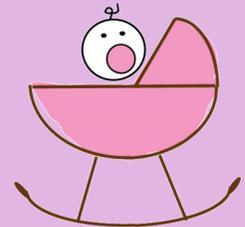

National Cyber Security Awareness Month

Every October the Department of Homeland Security and NCSA encourages vigilance and protection by all computer users. Cyber threats pose one of the gravest national security dangers the United States faces.

STOP. THINK. CONNECT.

Basic Tips:

- #1. Keep a Clean Machine: Keep security software current, protect all devices that connect to the internet, plug and scan.
- #2. Protect Your Personal Information: Update passwords periodically and make them long and strong, write it down and keep it safe, own your online presence.
- #3. Connect With Care: When in doubt throw it out, get savvy on Wi-Fi hotspots, and protect your money!

Congratulations!
